Little Flyers Outdoor Air Quality Policy

Children of all ages will have the daily opportunity for outdoor play (when weather, air quality, and environmental safety conditions do not pose a health risk) (NAEYC 5.A.06.a).

Summer is upon us and LFA's policy determines if the children can go outside. As a NAEYC school we are required to go outdoors daily, but our staff does monitor the air quality before going out @ <http://www.airnow.gov>, the Weather Bug, or weather channel app. The Air Quality Index (AQI) rating is from 0 to 500. 0 to 100 is good to moderate and all children at LFA can venture outdoors. AQI of 101 to 150 is not recommended for sensitive groups such as our infants or twaddlers. If the Air Quality index is above 151 all children shall remain indoors while under the care and supervision of Little Flyers Academy.

Keep in mind during the hot days of summer the children play in the shade and take frequent water breaks. Make sure to send in a bottle/cup of water each morning to be refilled by our staff. Also make sure your child's name is on it. Do not send in juice for the playground as it attracts bees and ants. Lastly, during the warm days the children may go out early so apply sunscreen before you drop them off at LFA.

Conferences July 19th & 20th Infant Twaddler Toddler

Please sign up with
your child's teacher
to review your child's portfolio.

LFA is
CLOSED

for
Painting & Cleaning
August 27th
Through
September 3rd
